

Animal Tracking - Acoustic Tagging - data currently available via the portal

Data summary - Detections by species - report run on Thursday 31 August 2017

# transmitters:	Number of transmitters deployed.
# releases:	Number of animal releases.
# embargoed releases:	Number of embargoed releases.
# releases with detections:	Number of released animals that have been detected.
# releases with location:	Number of animal releases for which capture/release latitude and longitude coordinates are available.
# protected:	Number of transmitters that are part of a protected project.
# detections:	Total number of detections.
# public detections:	Total number of public detections.
First detection:	Data at which the first tag detection occurred (format: dd/mm/yyyy).
Last detection:	Date at which the last tag detection occurred (format: dd/mm/yyyy).
# days of data (range):	Number of days between the first and last detection for each animal released (minimum - maximum).
Animal Tracking Facility:	http://imos.org.au/animaltracking.html : web app: https://animaltracking.aodn.org.au/ .
