

Ocean Gliders - data currently available via the portal

Data summary - report run on Thursday 28 June 2018

“Note that there has been a drop in the total number of glider deployments in this data report compared to previous monthly reports. The drop is due to the migration of the IMOS data to a new storage facility. Work is underway to fix issues with the corresponding netCDF files.”

Headers:	Data type.
Sub-headers:	Deployment state.
# platforms:	Number of distinct seaglider and slocum glider platforms that have been deployed.
# deployments:	Number of seaglider and slocum glider deployments.
# slocum deployments:	Number of slocum glider deployments.
# seaglider deployments:	Number of seaglider deployments.
Start:	Earliest glider deployment date (format: dd/mm/yyyy).
End:	Latest glider recovery date (format: dd/mm/yyyy).
# days of data (range):	Number of days between the data recording start and end dates (minimum - maximum).
Ocean Gliders:	http://imos.org.au/oceangliders.html .
