

# Animal Tracking - Acoustic Tagging - data currently available via the portal

## Data summary - Detections by project - report run on Monday 28 May 2018

<b>Headers:</b>	Type of funding.
<b># installations:</b>	Total number of installations. An installation is a configuration of multiple receivers generally identified by a geographic location.
<b># stations:</b>	Total number of receiving stations. A receiving station is a location within an installation where a receiver is deployed.
<b># deployments:</b>	Total number of receiver deployments.
<b># releases:</b>	Total number of animals released by each project.
<b># tag detections:</b>	Number of detections for tags released by each project.
<b># transmitters:</b>	Number of transmitters detected across all receivers.
<b># detections:</b>	Total number of detections recorded across all receivers.
<b>% unregistered transmitters:</b>	Number of unregistered transmitters detected at a given receiving station as a percentage of the total number of transmitters (i.e. % unregistered transmitters = Number of unregistered transmitters/Total number of transmitters x 100.)
<b>% unregistered detections:</b>	Number of detections of unregistered tags at a given receiving station as a percentage of the total number of detections (i.e. % unregistered detections = Number of detections of unregistered transmitters/Total number of detections x 100.)
<b>Last deployment:</b>	Latest receiver deployment date (format: dd/mm/yyyy).
<b>Last detection:</b>	Last detection date (format: dd/mm/yyyy).
<b># years of data:</b>	Number of years between the earliest and latest detection dates.
<b>Animal Tracking Facility:</b>	<a href="http://imos.org.au/animaltracking.html">http://imos.org.au/animaltracking.html</a> ; web app: <a href="https://animaltracking.aodn.org.au/">https://animaltracking.aodn.org.au/</a> .
