

# Ocean Radar - data currently available via the portal

## Data summary - Radials - report run on Tuesday 31 October 2017

---

<b>Headers:</b>	Type of data file (i.e. QC vs. non-QC).
<b>Sub-header:</b>	Location of radar site.
<b>Start:</b>	Transmission start date (format: dd/mm/yyyy).
<b>End:</b>	Date at which the last file was received (format: dd/mm/yyyy).
<b># years of data:</b>	Number of years between the transmission start date and the date at which the last file was received.
<b>% coverage:</b>	Total number of files as a percentage of the total number of files expected (i.e. % coverage = Total number of radial files received/Total number of radial files expected x 100)
<b>Ocean Radar:</b>	<a href="http://imos.org.au/oceanradar.html">http://imos.org.au/oceanradar.html</a> .
